### Custom Shapes

Custom shapes are available as stand-alone or in combination with fixed and venting casements, double-hungs and side-sliders.

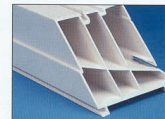

### Innovation through experience

For over 30 years our name has been synonymous with the design and manufacturing of quality custom window products. Today, Vinylbilt has 15 manufacturing facilities across the U.S. and Canada.

Now, Vinylbilt is proud to announce the Platinum Series. A new custom vinyl window series that is designed to set new standards in design flexibility, energy efficiency, manufacturing excellence and customer support.

Vinylbilt windows are manufactured in a dedicated manufacturing facility located in Woodbridge, Ontario. The latest computerized technologies ensure quality product backed by our 'Second-to-none' experience and a total commitment to making the finest custom vinyl windows on the market today.

*All features and specifications are subject to change without notice.*

**Frame Extrusion:** Multi-cavity frame for added strength and energy efficiency.

**Screen:** Screen corners feature a moulded corner brace for extra strength and easy screen replacement.

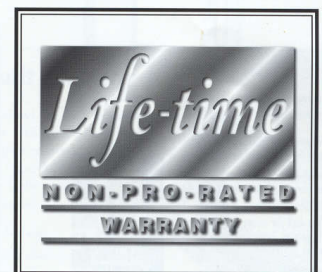

**Weatherseal:** Sanoprene bulb weatherseals in combination with welded fin and pile seals virtually eliminate air infiltration.

**Drainage:** Unique drainage system expels all the moisture from the frame/sash.
